SAFETY WATCH / FIRE WATCH PERSONNEL

Job Description

Trans-Care Rescue is currently recruiting mature individuals who are interested in part-time/contract work as safety watch and/or fire watch personnel on various industrial sites throughout the year. Ideal applicants may include retired or semi-retired people, part-time university students and shift workers.

Candidates must be:

- Fluent in English (verbal, reading and writing).
- In good physical health- jobs typically include long periods of standing, sitting, walking and stairs.
- Able to put in long hours during a single day or night shift (10-12 hours).
- Able to maintain organization of all required paperwork (confined entry permits, confined space atmosphere logs, etc.).
- Able to pass a pre-work drug and alcohol test when required.
- Must have access to a reliable means of transportation.
- Previous industrial experience is an asset.
- Must be minimum 18 years of age.

Scope of work may include, but is not limited to:

- Confined space monitoring (when workers are inside vessels).
- Fire watch (when workers are performing hot work).
- Bottle watch (operating and attending to breathing air supply equipment).
- Gas monitoring (using electronic gas monitoring devices to assess air quality in work area).

Training will be provided at our facility in Langham, SK.

Please submit your resume to sheila@trans-carerescue.com. Suitable candidates will be contacted for an interview and the required training.
